

QBITTI News for June

Focus on: DWV-101 - Drain, Waste and Venting Course

By Neil Cuomo

This month the DWV-101 course (Introduction to Drain, Waste and Venting) meets. This particular course is specific to the Plumbers Helper training program, and focuses on the part of the plumbing system responsible for removing sewage and grey-water from a building. DWV systems in NYC and the surrounding area use both cast-iron and/or PVC pipe to remove waste and provide venting. And in some areas of the city, sewage pipes are still lined with old brick and mortar.

Historically, when students consider taking plumbing, DWV is usually the subject area that produces the most hesitation on their part. However, it may also be the most important component of any plumbing system. It is a commonly held belief that the first working toilet was invented by Sir Thomas Crapper (no pun intended, it's his real name) in the late 1800's. Until that time poor sewage practices had been responsible for many of the world's worst health problems, including the Bubonic Plague (Black Death). Today's modern sewage techniques, including the use of cess-pools, drainage systems and sewage treatment plants, have virtually rid the world of these types of diseases.

This course has a 60:40 ratio of hands-on training to lecture, which means that our students will be spending most of their time building projects.

5/09/12

New York Blood Center

QBITTI held its first blood drive for 2012 on 5/9/2012, and we were able to collect 25+ units of blood as a result. We would like to thank all who participated, and remind you all that our next blood drive will be on or about 11/6/2012. from 10:00am to 3:00pm at our school location. All are welcome. Walk-ins are welcome, but registration is preferred. Please call (718) 392-4156, or send an email to Millie@qbitti.com on or before 11/2/12 to donate.

Placement Highlights

By Bill Higgins

Two more of our Building Maintenance graduates found jobs last month; Noah U. (26) and Ira H. (35) as well as Plumber's Helper Graduates Lamel B. (30) and Paul K. (23). Not to be left out wer our Electrician's Helper Graduates Ross D. (34) and Eugene F. (48). Our Telecom students are participating in numerous interviews, and we are hoping for some good news in the near future.

Admissions News By Millie Lainez

Registration and enrollment into QBITTI is easy. Simply contact us by phone at (718) 392-4156, or by email at Admissions@qbitti.com. Our professional staff will help you through the process. And remember, we offer all of our students a 90 hour free trial period at the beginning of training. For more information on our entrance requirements [click here](#). The Next Class Start dates are below:

 [Building Maintenance Program](#) - 6/19/2012 & 7/16/2012

 [Electrician's Helper Program](#) - 7/16/2012 & 9/04/2012

 [Plumber's Helper Program](#) - 6/19/2012 & 7/16/12

 [Electronic/Photocopier Tech Program](#) - 7/16/2012 & 9/04/2012

 [Telecommunications Tech Program](#) - 7/16/2012 & 9/04/2012
